

CLIA Compliance Manual for AcT 5diff Series Analyzer

Table of Contents

How to Use This Manual.....	i
Policies and Procedures Approval Form.....	ii

TAB 1: TESTING REGULATIONS

How to Sign Up with the CLIA Program.....	1-1
CLIA Test Classification.....	1-2
Calculating Annual Test Volume.....	1-2
CLIA Inspections and Fees.....	1-2
Laboratory Personnel Policies.....	1-3
Laboratory Director Responsibilities.....	1-3
Laboratory Director Qualifications.....	1-3
Other Laboratory Personnel.....	1-4
Personnel Training Procedures.....	1-5
Procedures for Personnel Competency Evaluation.....	1-6
Procedures for Providing Continuing Education.....	1-6
The Testing Environment.....	1-7
Laboratory Safety Policies.....	1-8
General Safety Precautions for Specimen Handling.....	1-8
Safely Working with Blood-Based Controls.....	1-8
Hazardous Waste Disposal.....	1-9
In Case of Accident.....	1-10
For More Information.....	1-10
Proficiency Testing (PT) Policies.....	1-11
PT Providers.....	1-11
PT Procedures.....	1-11

TAB 2: QUALITY REQUIREMENTS

Overview of CLIA Quality Requirements.....	2-1
Policies for the Preanalytic Phase of Testing.....	2-2
Test Requisitioning Procedures.....	2-2
Procedures for Handling Incomplete Requisitions.....	2-2
Procedures for Standing Orders.....	2-2
Specimen Collection and Handling.....	2-2
Venipuncture Procedure.....	2-2
Capillary Blood Collection Procedure.....	2-4
Specimen Transport Procedures.....	2-5
Specimen Accessioning Procedures.....	2-5
Specimen Handling Procedures.....	2-5
Specimen Rejection Criteria.....	2-5
Criteria for Referral of Specimens.....	2-5
Verifying Performance Specifications: Method Validation.....	2-6
Understanding Precision and Accuracy.....	2-6

Performing Method Validation	2-7
Interpreting Method Validation Results	2-7
Comparing Your New Instrument to a Previous Method: Split Sampling	2-8
Split Sample Analysis Procedure	2-8
Policies for the Testing Process (Analytical Phase).....	2-9
Analytic Testing Policies	2-9
Reagent Tracking Procedures	2-9
Reagent Changing Procedures.....	2-9
Instrument Maintenance Procedures	2-9
Quality Control Policies	2-9
QC Procedures	2-9
Procedure for Recognizing Outliers, Shifts and Trends	2-9
Procedure for QC Record Retention	2-10
Calibration Policies and Procedures	2-10
Procedure for Calibration Record Retention	2-10
Supplier	2-10
Procedure Manual Approval.....	2-11
Policies for the Postanalytic Phase of Testing	2-12
Reporting Results	2-12
Reference Ranges	2-12
Reportable Ranges	2-13
Reporting Format	2-13
Reporting Protocol	2-13
Troubleshooting Flagged Results	2-13
Documenting and Retaining Troubleshooting Records.....	2-14
Procedures for Supervisor Review.....	2-14
Turnaround Time	2-14
Panic/Alert Value Procedures	2-14
Procedures for Recognizing Clinically Inconsistent Results	2-15
Procedures for Correcting Erroneous Test Results	2-15
Ensuring the Security of Patient Test Results.....	2-15
Procedures for Using Alternative Methods.....	2-15
Communications and Laboratory Complaints	2-16
Incident Management	2-16
Procedure for a Power Failure	2-16
Quality Assessment Program for AcT 5diff Series Analyzer	2-17

TAB 3: PROCEDURE MANUAL

Principle	3-1
A ^c •T 5diff Analyzer Parameters	3-1
Specimen Collection and Handling	3-2
Specimen Handling, Venous Blood.....	3-2
Specimen Handling, Capillary Blood.....	3-2
Equipment and Materials	3-3
Equipment Performance Parameters	3-3
Materials, Reagents	3-3
Reagent Preparation	3-3
Reagent Storage	3-3
Reagent Tracking.....	3-4
Materials, Controls and Calibrator.....	3-4

Control/Calibrator Preparation	3-4
Control/Calibrator Storage	3-4
Waste Container	3-4
Calibration and Calibration Verification	3-4
Calibration Frequency	3-4
Recommended Calibration Conditions	3-4
Pre-Calibration Checks	3-5
Auto-Calibration	3-5

Insert the appropriate procedure for the instrument you use after page 3-6:

<u>Coulter Instrument</u>	<u>Page to Insert</u>
5diff	3-6 to 3-14 5diff
Open Vial	3-6 to 3-13 Open Vial
Cap Pierce	3-6 to 5-15 Cap Pierce
Autoloader	3-6 to 3-25 5diff Autoloader

TAB 4: FORMS

Forms Index	4-1
Method Validation Worksheet	4-2
Split Sample Analysis Log	4-5
Lab Personnel Training Checklist	4-6
Lab Personnel Evaluation Checklist	4-7
Lab Testing Log	4-8
Specimen Rejection Log	4-9
Reagent Log	4-10
AcT 5diff Series Analyzer QC Log (Optional)	4-11
AcT 5diff Series Analyzer QC Log #2 (Optional)	4-12
Calibration Worksheet	4-13
PT Failure Investigation Report	4-14
Maintenance Log	4-15
Temperature/Humidity Chart	4-16
Monthly QA Checklist	4-17
CMS Form 116	CMS
How to Calculate the Mean, SD, and CV Using Control Material	Appendix A

TAB 5: MSDS

CAL[®] Calibrator
Control Plus
AcT 5diff Rinse
AcT 5diff Hgb Lyse
AcT 5diff WBC Lyse
COULTER AcT 5diff Diluent
AcT 5diff Fix
